GSS Update:

- Anna: has applied for funding application for 30.000 DKK for Green Sundays and Green Screen (series of showcasing documentaries) and one big 'opening' event (KU-almindelige Fund)
 - Anna and Louise: 'official' fundraising/finance people
 - Suggests to apply to Tuborgfondet once we have

3. Mette introduces Green Solution Centre

- Not a physical centre, but a platform for research to come together
- Different topics, with researchers from all different faculties
- Living lab = exploration room
 - E.g. kitchens in FRB acting as an experimental space for topic of plant-based food
 - E.g. Nordhavn as experimental space for topic of urban solutions
- Objectives:
 - Generate multidisciplinary ideas and solutions
- Led by academics from different faculties and **Jakob** (<< contact for us)
- Giving money to student projects for e.g. theses (from 5000 to 15000 DKK)
- Money available for pilot projects, i.e. small-scale research projects, e.g. plant-based canteen at SCIENCE
- Introducing: FoodSHIFT campaign
- Suggestion from Jakob: Create a 'directory' with contact information of students active in green groups, and of the researchers
 - Suggested medium: LinkedIn
 - This new page/directory could also include info about the Green Solutions Lab

4. Ellen

Introduction of Actory

- Not financial support
- Lots of different projects for students to get involved and get support: short-term events, mid-term programmes
- Current big project: 'Campus is a living lab'
 - Pilot project - helping students find ways how to make campus more sustainable
 - Project ends with the KU Festival
 - Main focus: making the ideas happen/being implemented at KU
 - Brain storm of ideas around sustainable campus
