2. Dirigent and note taker

Dirigent: Rebekka

Note taker: Andrias

3. Update from the associations (locally)

- **Casus Clima:**

Understaffed at the moment. Will have an Intro meeting tomorrow. Focus on new kind of events about private law.

- **Veganske studerende:**

Next event Sunday: general assembly. Spent a lot of time fundraising. Hoping to get grants for plant based canteens.

- **KU Green Events:**

Started to organize 2nd green screen

- **KU's grønne styregruppe:**

Andrias is the new member but have not attended meetings yet.

- **Vild Campus:**

Working to get new members, got 7 new members so far. Planning events at Nørre Campus. Planned a green youth meeting with national green organizations. KU planned biodiversity campaign, which Vild Campus want to be a part of.

- **Geofagråd:**

Looking for events to host: Lunch talks and mushroom foraging.

- **Ecosia campaign**

Freja is in contact with ecosia: Got a link for KU, through which use will contribute in a tree counter

- **Film club**

Currently 4 people to organize. Organize screenings and are always open to ideas. Next event: Eco sexuality, unfortunately also on 5th of October.

- **Sima**

Trying to recruit people. Were at the association bazaar at psychology. Event at social science. Hosting events online.

- **FU update from the GSS board**

SRKU has general assembly this Saturday

4. Ecosia campaign

Finance:

Would like to know where to search for money for stickers, posters and coffee. Anna is maybe up for helping with applications for funding.

Posters/graphics:

Designs for posters. QR code with link.

Lukas works at KU print shop. Rebekka finds out whether SRKU can print it.

Maybe make a KU specific flyer

Maybe make stand.

Social media

Some SOME templates that look professional. Access to our fb-page

Connection to GSS

Makes sense to make a GSS campaign, because we want to span all of KU. We'll take it up at a green Sunday. Then maybe somebody new could help.

Maybe at some point make a broader campaign for green IT at KU. But let's focus on the ecosia campaign.

Jakob has access to a KU klimaregnskab document.

5. Discord as platform for intern communication

Find the discord here: <https://discord.gg/Za9Vm2MU>

Let's keep our intern communication here from now on to avoid messenger.

6. Campus as a living lab

Visit by Ellen last time about the project Campus as a living lab. Jakob has signed up for it

Work group meeting 2. Oktober. There is going to be food. They might be open to new ideas – possibility to suggest ecosia campaign here as well.

7. Upcoming events

Food waste day, 29th of September

- Food waste day at CSS with the canteen.

Demo for sustainability in KU's strategy. 3rd oct

- <https://fb.me/e/3a27Jk0MW>
- Very relevant for us. Organized by den grønne ungdoms bevægelse

Demo at the opening of the parliament. 4th oct

KU Green Screen, 5th October

- <https://fb.me/e/3Tb8rDEt7>

Studieliv23, 27th October

- <https://eventsignup.ku.dk/studieliv23>

Celebration for all associations at KU. We are nominated for a prize! You need to sign up via the link above.

Politik Konference 27.-29. Oct.

Contact Andrias if you are interested. Climate strategy in Danske Studerendes Fællesråd(DSF) will be discussed in Aalborg.

DTU-altprotein project

Jakob and Anna got in contact with a group. Maybe have collaboration with us. They want to maybe emulate our plant based canteen campaign.

5. oct: DGUB Want help to make green education policy

8. Roles in the board

We have a page on srku.dk, so maybe we don't need to create a new website now, as our energy is rather spent on events and campaigns

GSS is the instructive element while the local orgs are more social.

In Veganske Studerende they have groups for development of the organization, one focused on social events, one focused on recruitment and SoMe.

We already made groups in the board, but it should function better. More people are possibly needed to fulfill the roles. More defined roles and more focus.

The last few months recruitment and sharing events has been very spontaneous. We shouldn't be expected to post about everything. Spontaneousness is good.

We have talked about events, but we also need to do the other stuff. Maybe make a list next green Sunday. Have specific time where the board meets at green Sunday.

Maybe have standing point on each agenda where we go through our roles. Find time at another point.

Maybe have it as a part of the introduction. If we had more defined roles this would come more naturally.

An extra meeting where we discuss the responsibilities. Maybe make it a hybrid.

Questions to discuss:

- How do we structure GSS?
- When do we do the board work?
- What should we prioritize?
- What are the tasks for each role?
- Are we in need of more people to take care of the tasks?

The board a the moment

Role	Role description	
Communications	Responsible for the green network mail Responsible for SoMe Make an open facebook page	Lena, CCS
